BLOOD PRESSURE MONITORS

Your heart beats: 115,200 times a day, 42 million times a year. Good heart health is very much essential.

Arterial hypertension is among the most prominent health risks today.

It's important to check blood pressure regularly and with life becoming more stress-filled, monitoring heart health is one of the best ways to prevent irreparable damage. Trister is dedicated to ensure that people live a "Heart healthy" life with the aim of reducing health related stress and helps improve work life balance.

ADVANCED BLOOD PRESSURE MONITOR WITH ECG

TS 320BPEC

Electrocardiography (ECG) identifies changes in heart rhythm, a recognized indicator of heart diseases.

The Trister Advanced Blood Pressure Monitor with ECG allows you to monitor blood pressure as well as your heart beat in comfort of your home. These results are accurate patients visits to the doctor.

These results can then be shared with your Health Care Professional by letting you create a good heart health program!

Features

- ▶ Optimum monitoring of blood pressure and heart condition
- ▶ Instant feedback of abnormal ECG rhythm and waveform
- ▶ Patented electrode technology for reliable ECG measurement
- ▶ Memory Storage: 2 x 128 results
- ▶ User friendly interface
- ▶ Data management and analysis on tablet or smartphone
- ▶ 3 year warranty

SMART AUTOMATIC UPPER ARM BLOOD PRESSURE MONITOR

Measuring your blood pressure is now simple with Trister Smart Automatic upper arm Blood pressure Monitor, It is the most convenient way to measure and monitor your blood pressure and its portable and easy to use. Trister Smart BP monitor will automatically sync with your smart phone with the Mobile App via Bluetooth technology.

SMART AUTOMATIC UPPER ARM BLOOD PRESSURE MONITOR

TS 330BPS

Trister Smart BP monitor is Reliable at home blood pressure monitor that gives you accurate readings to keep track of your heart health.

This all in one cuff has no tubes or wires and includes easy to use features and Smart features that easily sync your readings to your smartphone on the app via Bluetooth.

- Easy to Use and Accurate Readings
- Upper Arm type (Cuff size: 24-43 cm)
- Automated averaging function (3 times measurement)
- Irregular heart beat (IHB) detection
- 200 Memory with Date / Time
- Mobile App for cardiovascular evaluation (compatible for iOS and Android platform)

UPPER ARM BLOOD PRESSURE MONITORS

Why is it useful to measure Blood pressure at home?

Home monitoring allows you to share important values, measured under everyday conditions, with the recommendation from your doctor.

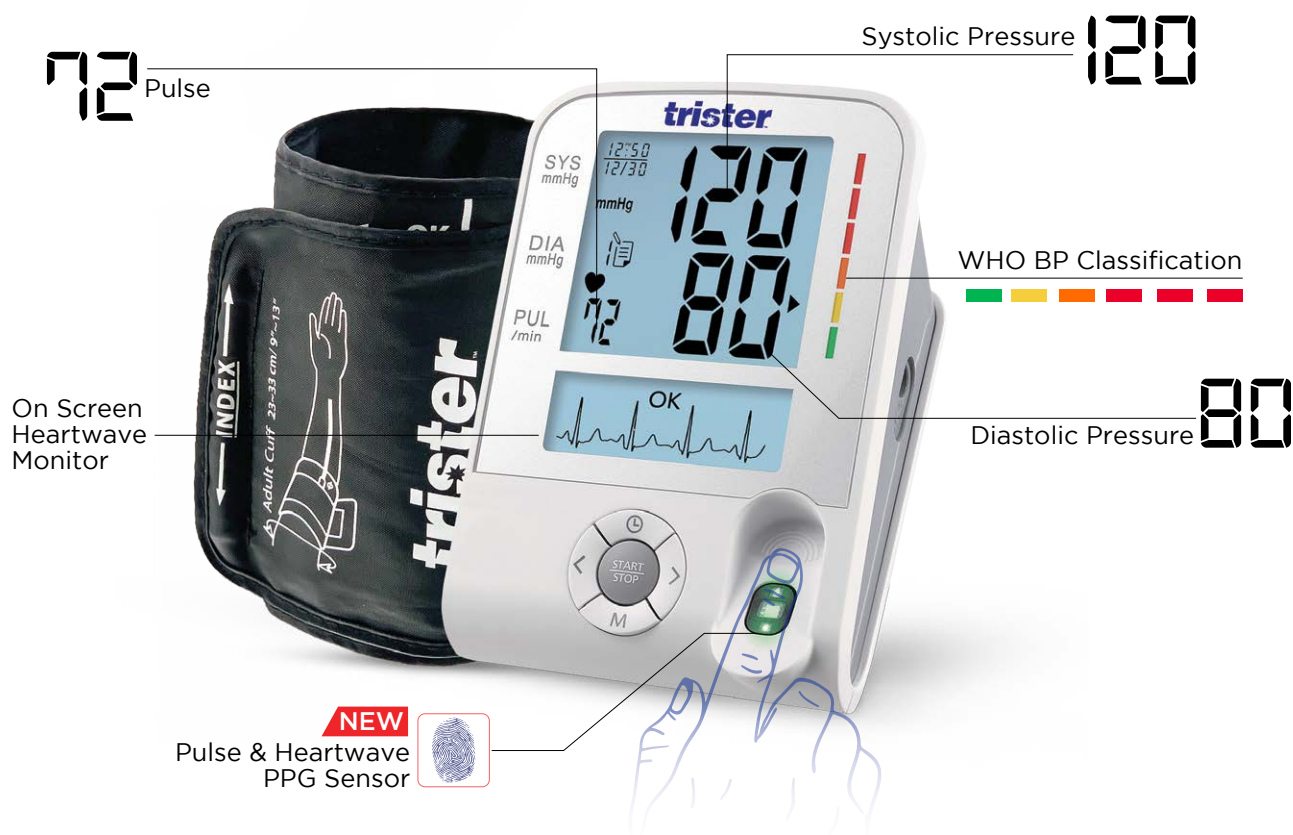

The stress of being in a doctor's office may cause an individual's blood pressure to raise and exhibit a higher value than usual. Regular home monitoring in a normal, relaxed condition may give a true indication of your actual blood pressure.

AUTOMATIC UPPER ARM (AFib) BLOOD PRESSURE MONITOR

TS 360BP

Features:

- ▶ Irregular Heartbeat (AFIB) Detector
- ▶ Average of Last 3 Measurements
- ▶ WHO BP Classification Indicator
- ▶ Memory Storage: 3 x 120 results
- ▶ 6 year warranty

**EXTRA LARGE DISPLAY | BEEPING
BLOOD PRESSURE MONITOR (OSCILLOGRAPHIC)**

TS 305BM

Features

- ▶ Irregular Heartbeat Detector
- ▶ Average of Last 3 Measurements
- ▶ WHO BP Classification Indicator
- ▶ Memory Storage: 2 x 60 results
- ▶ Date/Time Display
- ▶ Extra Large LCD Display
- ▶ AC Adaptor Port
- ▶ Automatic Off
- ▶ Beep Sound
- ▶ Measurement method: Oscillometric testing
- ▶ 6 year warranty

WRIST BLOOD PRESSURE MONITORS

CUFF & BODY MOVEMENT DETECTION BLOOD PRESSURE MONITOR

TS 365BPW

For some people, upper arm blood pressure measurement is painful, inconvenient or they just cannot get an accurate reading. That's why Trister has created a range of Wrist BP monitors.

Features:

- ▶ Irregular Heartbeat Detection
- ▶ Average of Last 3 Measurements
- ▶ WHO BP Classification Indicator
- ▶ Memory Storage: 2 x 60 results
- ▶ Cuff Size: 13.5cm - 19.5cm
- ▶ Cuff Wrapping Detection
- ▶ Body Movement Detection
- ▶ Date/Time Display
- ▶ LCD Display
- ▶ Automatic Off
- ▶ Measurement Method: Oscillometric testing
- ▶ Power Source: 2 x AAA batteries
- ▶ 3 year warranty

Indication for Position

INFLATION BLOOD PRESSURE MONITOR

TS 340BPIW

Trister Wrist Blood Pressure Monitor allows you to check your blood pressure anywhere and anytime.

- Inflation Technology allowing fast and convenient measurement.
- Small in size and features a large screen display.
- Easy to use with adjustable wrist cuff.

Features:

- ▶ Irregular Heartbeat Detection
- ▶ Body Movement Indication
- ▶ Advanced Positioning Indication
- ▶ WHO BP Classification Indicator
- ▶ Memory Storage: 2 x 60 results
- ▶ Cuff Size: 13.5-21.5cm
- ▶ LCD Display
- ▶ Measurement method: Inflation
- ▶ Power source: 2 x AAA batteries
- ▶ 6 year warranty

**ANEROID
SPHYGMOMANOMETER
WITH
STETHOSCOPE**

TRISTER ANEROID SPHYGMOMANOMETER WITH STETHOSCOPE

TS 620AS

The Trister Aneroid Sphygmomanometer with Stethoscope is intended for use in measuring blood pressure with a cuff of arm circumference ranging from 22cm to 42cm (8.6 -16.5 inches).

- Provided with 300mmHg Non- Pin Stop Manometer.
- High Accuracy of Upper Arm Blood Pressure Measurement
- Precision Crafted Deluxe Inflation System.

**Black Enamel
300mmHg
Non - Pin Stop**

**Single Head
Lightweight
Stethoscope**

**Chrome - Plated
Brass Air Release
Valve**

**Latex Free
Universal D-ring
Cuff**

**Calibration Screw
Driver**

Sturdy Tubing

Technical Parameters:

Measuring range	: 20 - 300mmHg
Measuring resolution	: 2 mmHg
Precision	: within 33mmHg in 60-240mmHg , within 34mmHg in 20-60mmHg and 240-300mmHg
Diameter of Dial	: 62 mm
Cuff Size	: 22-42 cm

Accessories:

Sphygmomanometer, Universal D-Ring Cuff, Bulb, Valve, Single Head Stethoscope, Storage Bag, Mini Screw Driver, Instruction Manual.

**2 IN 1 BLOOD GLUCOSE
PLUS β -KETONE
MONITORING
SYSTEM**

Using a combined Blood Glucose and β -Ketone measuring device improves glycemic control. Ketone testing is a key part of Type 1 diabetes management as it helps to prevent ketoneacidosis from occurring. For others, monitoring blood glucose and ketone levels is increasingly important in maintaining good health.

2 IN 1 BLOOD GLUCOSE PLUS β -KETONE MONITORING SYSTEM

TS 021BGK

For Self Testing of Blood Glucose and β -KETONE Levels

- Accurate Results
- Convenient and Easy to Operate
- Memory Storage: 1000 Results

Features

- ▶ Parameters: Glucose, Hematocrit, Ketone
- ▶ Accuracy in Primary, Neonatal, Gestational, Dialysis and Elderly Age
- ▶ Before/After Meal (AC/PC)
- ▶ 7, 14, 21, 28, 60, 90 Days Average Function
- ▶ Hygienic Strip Ejector
- ▶ 4 Reminder Alarm
- ▶ Backlit LCD Display
- ▶ 6 Year Warranty

BLOOD GLUCOSE TEST STRIPS FOR TRISTER 2 IN 1 METER (TS 021BGK)

TS 021BKS

Technical Specifications

Chemical Composition (Per Strip) :

- ▶ Glucose dehydrogenase (E.coli) : 8%
- ▶ Electron shuttle : 55%
- ▶ Enzyme protector : 8%
- ▶ Non-reactive ingredients : 29%

β -KETONE TEST STRIPS FOR TRISTER 2 IN 1 METER (TS 021BGK)

TS 021BGS

Technical Specifications

- ▶ β -Hydroxybutyrate Dehydrogenase (Pseudomonas sp.) : ≥ 0.5 U
- ▶ Mediator : 55%
- ▶ NAD : ≥ 0.5 Qg
- ▶ Enzyme protector : 8%
- ▶ Non-reactive ingredients : 29%

BLOOD GLUCOSE MONITORING SYSTEM

Diabetes mellitus is increasingly becoming one of the most common chronic complaints across the world. Adult onset diabetes or as it is better known, as Type 2 diabetes is the result of combination of lifestyle factors such poor diet, lack of exercise and being overweight. Monitoring blood glucose levels has proven to be a very effective way of managing and controlling blood glucose and preventing or delaying the onset of Type 2 diabetes.

BLOOD GLUCOSE MONITORING SYSTEM

TS 375BG

CLASSIC

For Self Testing of Blood Glucose

- Accurate Results
- User-friendly
- Memory Storage: 100 Results
- Result Range: 20 ~ 600 mg/dL
- Lifetime Warranty

BLOOD GLUCOSE TEST STRIPS 50'S

CLASSIC

Features

- ▶ GOLD Electrode
- ▶ Easy and Convenient Test (Sip-in Technology)
- ▶ 4 μ l / 11 sec
- ▶ Glucose Oxydase
- ▶ User-friendly

TRISTER URINE KETONE & GLUCOSE TEST STRIPS (25X2's)

TS 390UGK

Urinalysis Quick Test

- One step, quick & accurate Ketone & Glucose level test
- One step combination test
- Results within a minute

MULTI-CHEK MONITORING SYSTEM

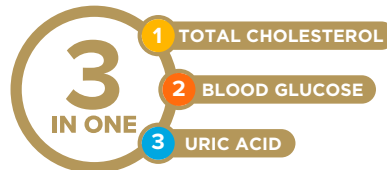

MULTI-CHEK™ MONITORING SYSTEM

TS 391MC

Trister Multi-Chek Monitoring System can be used for measuring your all the 3 important health parameters such as Blood Glucose, Total Cholesterol and Uric Acid levels from the fresh capillary whole blood from fingertip, palm or forearm.

QUICK & ACCURATE

Features:

- ✓ Auto Strip Recognition after Calibration
- ✓ Fast Results
- ✓ Store up to 460 Test Results
- ✓ Test Results with Date & Time
- ✓ Large LCD Display
- ✓ Low Battery Indicator

Calibrate the Meter before each test using the relevant Calibrator Strip to ensure that meter and the strip to be used are in sync. Individual calibrator strips are provided for calibrating the meter for Blood Glucose, Total Cholesterol & Uric Acid.

MULTI-CHECK GLUCOSE TEST STRIPS

TS 392MCG

Trister lancet is a pointed piece of surgical steel encased in plastic, used to puncture the skin on one's finger to get a blood sample. It is mostly used by diabetics during blood glucose monitoring. These Lancets are sterile and safe to use for any compatible blood glucose monitor. You can twist and pull the cap and insert it into the lancing device to take a blood sample for measuring your blood glucose level.

Feature:

- Fine gauge with tri-bevel tip for painless sampling
- Consistent depth penetration
- Universal design fits almost all lancing devices

FINGERTIP PULSE OXIMETER

Oxygen is critical to life. It is the transport carrier of hemoglobin, through which oxygen is supplied to our bodies cells through the bloodstream. In healthy people, oxygen saturation should be between 94-99%. When it falls below this level, it can be dangerous.

Earlier, blood oxygenation levels could only be understood by taking blood. Now, through pulse oximetry it is possible to measure oxygen saturation levels with an external meter that analyzes the blood color. Measuring oxygen saturation can alert people to the potential for hypoxia (or oxygen starvation) and is of increasing assistance in sports as an indicator of good health.

FINGERTIP PULSE OXIMETER

TS 370PO

Features

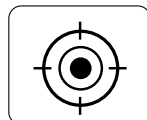

- SpO₂, PR, Pulse Bar and Waveform displayed
- Convenient and Easy to Use
- Small, Lightweight and with Very Low Power Consumption
- Dual Color, OLED Display

THERMOMETERS

Normal body temperature varies between 97.7°F and 99.5°F, or 36.5°C and 37.5°C. This value is called normothermia and may vary by about 0.9°F (0.5°C) during the day. While minor changes in body temperature are normal, it is important to check your temperature especially if you are feeling low or feeling sick. An accurate thermometer helps you to identify irregularity in body temperature and see what are often the first signals of something that needs attention: Particularly in young children who cannot explain their symptoms, monitoring temperature is essential.

Trister offers a range of non-contact & digital thermometers with added features like surface temperature reading and memory function to suit your needs.

SMART 4 MODE FOREHEAD & EAR INFRARED THERMOMETER

TS 240TFR

- Infrared reading

Features:

Measurement Range
Forehead & Ear : 32.0°C ~ 42.9°C (89.6°F ~ 109.2°F)
Object : 0°C ~ 100°C (32°F ~ 199°F)

Temperature Units : °C / °F, switchable
Automatic : 10s ±1s
Shutdown Memory : 40 groups of measured temperature

Accuracy (Laboratory)
Ear & Forehead mode : ±0.2°C / ±0.4°F
Object mode : ±1.0°C / 2.0°F

Operational conditions
Temperature : 10°C ~ 40°C (50°F ~ 104°F)
Humidity : 15 ~ 95% RH, non-condensing
Atmospheric pressure : 70 ~ 106kPa

Storage condition
Ambient Temperature : -20°C ~ +55°C (-4°F ~ +131°F)
Relative Humidity : 0 ~ 95% RH, non-condensing
Atmospheric pressure : 50kPa ~ 106kPa

Display : Segment LCD,
Four color LED backlight
Display resolution : 0.1 °C / °F

Battery : 2 x AAA Batteries

Warranty : 5 Years

The **Trister Digital Ear Thermometer TS 260TDE** is specifically designed for safe use in the eardrum. The Infrared Ear Thermometer is a device capable of measuring people's body temperature by detecting the intensity of infrared light emitted from the ear canal of human. It converts the measured heat into a temperature reading displayed on the LCD. Ear temperatures accurately reflect core body temperatures since the eardrum is in the cranial cavity and is not affected by the environment.

TRISTER DIGITAL EAR THERMOMETER

TS 260TDE

Features:

- ▶ Hygienic wide-angle probe with ejector

- ▶ 3cm Measurement Distance
- ▶ Power Source: 2 x AAA Batteries
- ▶ 5 year warranty

Normal body temperature varies between 97.7°F and 99.5°F, or 36.5°C and 37.5°C. This value is called normothermia and may vary by about 0.9°F (0.5°C) during the day. While minor changes in body temperature are normal, it is important to check your temperature especially if you are feeling low or feeling sick. An accurate thermometer helps you to identify irregularity in body temperature and see what are often the first signals of something that needs attention; particularly in young children who cannot explain their symptoms, monitoring temperature is essential.

Trister offers a range of non-contact & digital thermometers with added features like surface temperature reading and memory function to suit your needs.

Infrared technology

It is an advanced infrared gun thermometer with infrared technology which measures the temperature of the forehead accurately. This infrared gun thermometer is easy and safe to use anytime, anywhere.

Non-contact technology

This is a non-contact infrared thermometer and can detect the temperature in the range of 1cm to 3cm. This gun thermometer will help prevent you from getting infections from other people.

Fahrenheit and Celsius Scale

This infrared gun thermometer is designed in Celsius and Fahrenheit scales. You can select and change the scale as per your convenience.

Fast and precise

The infrared gun thermometer will detect temperature accurately in 1 second.

Body temperatures can vary at different locations on the body. The Trister Precision Digital thermometer helps to interpret your temperature with color codes display based on the selected body site where the measurement is taken, including options such as oral, underarm, and rectal measurements.

PRECISION DIGITAL THERMOMETER

NEBULIZERS

A nebulizer changes liquid medication to a mist so that it can be more easily inhaled into the lungs. Nebulizers are particularly effective in delivering asthma medications to infants and small children as well as to anyone who has difficulty using an asthma inhaler or is advised to use such therapy.

Nebulizers come in various technologies such as compressor, ultrasonic & ultrasonic mesh. They are used in clinics/hospitals and convenient to be used at home.

Trister offers solutions across this range.

PISTON COMPRESSOR NEBULIZER

AP12003A

ECONEB

Features:

- ▶ Appropriate Medication Quantities:
2ml minimum – 12 ml maximum
- ▶ Sound: Noise Level (at 1m distance) 61.5dB
- ▶ Nebulization Rate: Approx. 0.35ml/min (NaCl 0.9%)
- ▶ Particle Size (MMAD): Approx. 2.6µm
- ▶ Aerosol Output (2ml, 1% NaF): Approx. 0.14ml
- ▶ Aerosol Output Rate (2ml, 1% NaF):
Approx. 0.09ml/min

Includes

- ▶ Compressor, Nebulizer Kit, Air Tube (PVC, 100cm)
Mouthpiece, Nosepiece, Child Mask (PVC)
Adapter, Instruction Manual

COMPRESSOR NEBULIZER

TS 141NZC

The Trister Compressor Nebulizer TS 141NZC changes medication liquid into fine mist so you can inhale it directly into your lungs. It is the best way to give asthma medications to infants, small children and to anyone who has trouble in using an asthma inhaler. It's also convenient to use a nebulizer when you need a large dose of an inhaled medication.

HEALTHY HOME

Dry indoor air can cause dryness of skin, throat, nose, eyes and lips. Air conditioners can reduce humidity significantly, making a room dry. Furthermore, high humidity can worsen respiratory problems and create dampness in the air. Controlling air quality is an important way of keeping the whole family healthy.

Trister helps you to tackle dry indoor air with its range of humidifiers. The aroma function in some of our humidifiers helps to cleanse the air and promote a soothing feeling in the environment.

ULTRASONIC HUMIDIFIER

TS 100H-W

Features:

- ▶ Capacity: 2 Liters
- ▶ Can work 8-10 hours when full
- ▶ Aroma function
- ▶ Mist output: 250 ml/hr
- ▶ Power: 25~28 W
- ▶ Voltage: 100-240V
- ▶ Material: Polypropylene

Available also in Purple colour
TS 105H-P

HUMIDIFIER

Trister's Ultrasonic Humidifiers apply ultrasonic technology through a high frequency oscillation transducer plate to convert water into fine mist that spreads in the air to balance the moisture in dry conditions.

- It helps in preventing the air against dryness which causes irritation for many people.
- A humidifier can be particularly effective for treating dry skin, throat, nose and lips as well as forwarding off the common cold or flu.

DIGITAL ULTRASONIC HUMIDIFIER WITH IONIZER & FILTER

TS 145H5.8

Features:

- ▶ Capacity: 5.8 Liters
- ▶ Voltage: 220-240V
- ▶ Inbuilt Ionizer for fresh air
- ▶ Timer from 1 to 24 Hours
- ▶ Humidistat from 40RH% to 95RH% increment
- ▶ Max. evaporation: 300 ±30ml/H

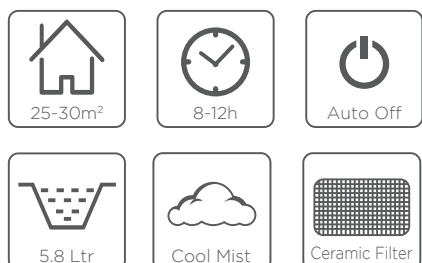

Healthy Home

ULTRASONIC HUMIDIFIER

TS 155H5.8

Features:

- ▶ Capacity: 5.8 Liters
- ▶ Voltage: 220-240V
- ▶ Mist adjustment
- ▶ Ceramic filter decomposes "hard water" and avoids scale
- ▶ Max. evaporation: 300 ±30ml/H

AROMA DIFFUSER

ULTRASONIC ESSENTIAL OIL AROMA DIFFUSER: WOOD

TS 120AD-W

Trister's Ultrasonic Aroma Diffuser acts as both a diffuser and humidifier. It gently vaporizes essential oils to give a fresh fragrance at home. It also humidifies the air to help you sleep better, cough less and alleviate dry sinuses.

PAIN MANAGEMENT

Pain is an important signal from the body that something is wrong. We need to listen to our bodies when these important signals are given. Continued and excessive pain is abnormal and as debilitating as any other disease. A person's pain threshold is completely different from another person and no two people experience pain the same way.

Non-medicated pain relief is an important tool that let's the body utilize its natural healing capabilities. Trister offers a range of quality heating pads and gel packs to help you get relief and overcome pain.
